Our Core Legal Services

☐ Mutual Consent Divorce

Divorce by mutual agreement, filed under your personal law is the fastest and most peaceful route to legal separation. We help you initiate the process online, prepare legally sound agreements, and complete the filing with minimal court visits.

NRI Divorce

For NRIs, jurisdiction and paperwork can be complex. We assist with online filing, Power of Attorney setup, and remote representation to ensure the process is legally valid and recognized both in India and abroad.

Child Custody

We guide you through custody negotiations and filing under the Guardians and Wards Act or personal laws. Whether it's sole custody, joint custody, or visitation planning — we always prioritize the child's well-being.

How We Work

It starts with a free consultation. You can speak to our team online or by phone. We verify your details, request basic documents, and then draft your petition. We'll represent you in court or file on your behalf. Once the process is complete, your divorce decree is delivered directly to you — in person or via email.

Serving You Nationwide

From Delhi NCR and Patna — we're one of India's few legal services that offer 100% guided divorce support remotely. No hidden costs. No wasted time. Just legal clarity with human support.
